MUST FILE REPORTS.

Factory Owners Object to Giving Any Authentic Information.

Any Authentic Information.

The board of trade is attempting to collect statistics to be used in a new publication to be issued the coming year. Most of the manufacturing concerns gladly give the information, but there are several which are too independent to do this and are almost insulting to those who approach them on the subject. It would be possible to get their financial standing from the county clerk's office, did these corporations comply with the law regarding the illing of annual statements with the county clerk. But they have not done this. One of the large concerns has not filed a statement for almost two years. The figures relative to labor can be obtained from the labor inspector, whose figures may be relied on. At its last session the board of supervisors ordered the prosecuting attorney to prosecute these richstors of the law, and this will probably be done in the near future.

BOTH WERE MISSING.

Thomas Doberty Looses \$120 and His Housekeeper.

Tom Doberty, a car cleaner for the Detroit, Lansing & Northern, was relieved of \$120 of his herd earned money yesterday morning. He left the money in the pocket of his pantaloons Tuesday night and yesterday morning he did not notice but that the money was where he placed it. Last night when he came home from work he found that a new housekeeper whom he had employed about a week ago was missing. He looked for his money and that was missing, too. He concluded that they had departed together, so he reported it to the police and has furnished them with a good description of his late housekeeper. Doberty lives on Waterloo street near Oakes street.

FOUND DEAD IN BED.

S. D. Brown Passed Away Tuesday
Night in His Son's House.

Walker Brown of No. 185 Buckeys
street reported to the police yesterday
morning, that he had found his father
dead in his bed at an early hour. His
father, S. D. Brown, aged 16 years, has
been out of health for a number of years
and of late has been troubled with heart
disease. Curoner Locher was notified
and on examining the body found death
had resulted from natural causes. Mr.
Brown had been in a critical state for
some time, but no fears of his immediate
death were entertained by the family.

Horsewhipped His Landlady.

A warrant for assault and battery was issued from the prosecuting attorney a office against Nicholas Dickems of Hyron township. It is stated that Nicholas rented a farm of one Mrs. Lane, and kept chickens in the cellar. Mrs. Lane objected to having the place defiled in this manner and tried to drive the poultry out. Mr. Dickems objected to the disposession of his poultry and assaulted Mrs. Lane with a buggy whip, heating her it is said rather severally. Then the recenters in the cellar crowed triumphantly—and the chickens and Mr. Dickems are still hotding the fort and will probably hang on to it until disposecessed by a deputy abertif.

The United Bretheren Casa.

Entron Grand Rapide Herald—I wish to correct an error which appeared in the paper lately concerning the United Bretheren case in the supreme court. The trouble grew out of the revision of the constitution of the church in 1883, and instead of fifteen bishops withdrawing as stated by the press, there are only six bishops in the church and at that convention which revised the confession of faith there were 131 delegates, including the six bishops. Of this number only lifteen delegates including one bishop, withdraw to another place, and are called radicals on account of their opposition to secret societies. The remaining 116 delegates continued in session and are called liberals, on account of their liberal views of secret societies. The case began in circuit court at Allegan and was decided in favor of the liberals, but on being carried to the supreme court the decision was reversed, and says in effect that the fifteen delegates who esceeded are the United Brethren in Christ, and that the 115 delegates who remained in session can claim neither the name nor the projecty. Queer decision this, but of course we must submit to the inevitable. projecty. Queer decision this, but of course we must submit to the inevitable. The supreme courts, as well as the lower courts, of both Indiana and Ohio have unanimously decided in favor of the liberal cause.

JUSTICE.

Theatrical Mechanics' Banquet.

Grund Rapide lodge No. 16, Theatrical Mechanics' association, gave a banquet last evening to members of the order and invited guests. The banquet, which was entitled a "Hand Times Eat," belied its name, for the viands were of an excellence not at all suggestive of hard times, and the feast was accompanied by a flow of wit and music which whold have made a dinner of herbe go down smoothly. The stage was patriotically set with flags and bunting so arranged as to make a striking ensemble. After the feast President Ryde of the association made a short speech in which be explained the objects of the order, which is purely fraternal and not at all in the nature of a trades union as is sometimes inferred. s trades union as is sometimes inferred. Speeches, songs and solos by members of the Gus Hill company, and the asso-ciation brought a pleasant evening to a

theler's Pumpkin Thursday. The people just now are unusually anxious to know how many seeds are contained in an ordinary pumpkin, and there's been a sight of guessing going on. You needn't guess again. Beginning this morning, all purchasers of a turkey at Detienthaiers will be given the correct number of seeds contained in the pumpkin now on exhibition, as they will be carefully counted. All persons interested, here's a pointer and a big one.
